

Dear Hiring Manager,

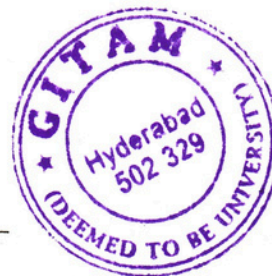

It is with immense pleasure that I am writing this letter of recommendation for Mr. Mitra Boga in support of his application to pursue an internship at your esteemed tech organization.

I am Dr. M. Siva Surya, Assistant Professor, Department of Mechanical Engineering, GITAM (Deemed to be University). As his faculty, I taught him Introduction to Robotics (MECH2071). I can confidently vouch for his skills in Introductory Robotics.

Mitra possesses the intellect, logical thinking, creativity, adaptability, communication, attention to detail and analytical expertise required to excel both as an individual and in a team role. It is his passion for the subject and dedication to his career that allowed him to perform incredibly in academics. It is commendable to take Robotics as an elective on top of the rigorous course load of Computer Science Engineering. He participated actively during class discussions and always came to class with an open mind and positive attitude choosing to sit in the front.

During his time as my student, he has consistently demonstrated a knack for learning and deep curiosity in Robotics (MECH 2071). He is capable of understanding fundamental concepts such as Robot Anatomy, Classifications, Drive Systems and Control, Sensors and Machine Vision, Robot Kinematics and Programming, and Robot Cell Design flawlessly.

As an aspiring Engineer, the internship at your organization would provide Mitra Boga with an opportunity to showcase and improve upon his academic prowess and allow you to practically experience what Mitra has learnt theoretically. I am sure he will prove to be an asset to your organization and will prove his talent in the realm of Robotics. I can confidently endorse Mitra's application without any reservations.

Dr. M. Siva Surya, Ph.D., Introduction to Robotics,
Assistant Professor, Department of Mechanical Engineering,
School of Technology, GITAM University,
Hyderabad, INDIA
