

Dear Hiring Manager,

I am delighted and proud to recommend Mr. Mitra Boga for the internship opportunity with your well-reputed organization.

I am Dr. B Malleswara Rao, Assistant Professor, Department of Physics, GITAM (Deemed to be University). As his faculty, I taught him Quantum Mechanics (PHYS1021). I can most definitely vouch for his academic and personal skills.

Mitra possesses the determination, intellect, collaborative skills, leadership acumen, adaptability, and expertise required to excel both as an individual and in a team role. I appreciate his keen interest in subjects like Science, Engineering and Technology development. It is his passion for the subject and dedication to his career that allowed him to perform incredibly in academics. He participated actively during class discussions and always came prepared to class to share the knowledge gained through active references from real-world use cases and industry experts.

During his time as my student, he has consistently demonstrated outstanding performance in concepts such as Schrodinger's wave equation, Properties of Matter Waves, Quantum Tunneling, Space Quantization and Qubits for Quantum Computing. He is a jovial fellow, highly respectful towards his professors and peers, and always conducts himself in a poised manner.

As an aspiring Engineer, the internship at your organization would provide Mitra Boga with an opportunity to showcase and improve upon his natural talents and allow you to practically experience what Mitra has learnt theoretically. I am sure he will prove to be an asset to your organization and will prove his talent. I endorse Mitra's application without any reservations.

B. Malleswara Rao

Dr. B Malleswara Rao, Ph.D, Quantum Mechanics,
Assistant Professor, Department of Physics,
School of Science, GITAM University,
Hyderabad, INDIA
